Professional Experience

BSIT Software Services Pvt Ltd. – *Application Developer*
📅 Aug 2022 – Jan 2023

- Developed scalable web modules using **React.js**, **Node.js**, **PHP (CodeIgniter)**, **MongoDB**, and **MySQL**.
- Worked on key projects like **job portals**, **booking platforms**, and **admin dashboards**.
- Built responsive UIs and secure backend systems with role-based access and real-time filtering.
- Collaborated with teams to implement features like profile management, form validation, and session control.

1. Careers at BSIT – Internal Job Portal
🔗**Live**:- https://careers.bsitsoftware.com/
A web-based portal for managing internal job postings and onboarding.

Roles and Responsibilities:
- Developed both User and Admin panels.
- **User Panel**:
  - o Job listing with real-time filters (role, location, department)
  - o Secure login, registration, session handling
  - o Profile management and updates
- **Admin Panel**:
  - o Job post creation/edit/delete with form validation
  - o Dashboard to manage applications and candidate statuses

2. Find Your Hostel – Hostel Booking Platform

Live:- https://www.bsitsoftware.com/FindMyHostel
A multi-role booking app for users, agents, and admins.

Roles and Responsibilities:
• Developed User, Agent, and Admin panels with role-based routing and authentication.
• **User Panel**:
   o Hostel search filters (location, gender, budget, sharing type)
   o Wishlist feature and profile management
• **Agent Panel**:
   o Hostel management (add/edit/delete), pricing, availability
   o Booking management and invoice generation
• **Admin Panel**:
   o Agent approval and status control based on business logic

---

3. RK Legal Associates – Corporate Website

Live:- https://www.rklegalassociates.in/
Static website for legal consulting firm.

Roles and Responsibilities:
• Designed responsive sections using HTML5, CSS3, Bootstrap
• Developed Services, FAQs, and Contact pages with UI consistency
• Integrated basic form validation and ensured cross-browser compatibility

---

Infosys Ltd. – *Systems Engineer (Trainee)*
▦ Aug 2022 – Jan 2023
• Completed foundation training in Power BI and RDBMS
• Gained initial exposure to enterprise software systems
• Left due to medical emergency and pursued self-learning in development

---

Personal Projects

Portfolio Website
Live:- https://rama-anji.github.io/Anjaneyulu-Ravi-portfoliowebsite/
• Developed a fully responsive React.js single-page application
• Created modular sections – About, Skills, Projects, Contact Form, Resume Download
• Ensured mobile responsiveness, performance optimization, and browser compatibility

---
